Presentation Skills

COURSE OVERVIEW

Many studies have found that public speaking is the number one fear amongst most people, outranking flying, snakes, spiders and even death. Ironically, it is also an important skill to master for personal and professional development. Our Presentation Skills program will give participants the skills they need to make speaking in front of a group less terrifying - and even enjoyable!

During this training program, participants will engage in discussions, activities and practices around these program topics:

- Understand different types of presentations (i.e. informative, persuasive, problem-solving, etc).
- Learn best practices for preparing and delivering successful presentations, from design to delivery.
- Feel capable and confident when presenting to different audiences.
- Know time management tips and techniques to deliver a relevant, applicable and engaging presentation.
- Create and manage presentations by utilizing current technology.
- Understand how to tailor presentations to specific audiences utilizing Adult Learning Principles.

“Be so good they can’t ignore you.”
– Steve Martin
